

SAFETY DATA SHEET

SECTION 1: PRODUCT AND COMPANY IDENTIFICATION

Product Name: ENVIROSYSTEMS® BIOSHIELD® 75

Revision Date: July 8, 2019

Chemical Description: Organosilane antimicrobial

Manufacturer: IndusCo, Ltd. 2319 Joe Brown Drive Greensboro, NC 27405 Main Telephone No. 336-375-7555 CHEMTREC-For Emergencies Only 1-800-424-9300 (24 hours), International 1-703-527-3887 NZ National Poison Centre 0800 764 766 (0800 POISON)

SECTION 2: HAZARDS IDENTIFICATION/EMERGENCY OVERVIEW

Classification of the Substance or Mixture:	ACUTE ORAL TOXICITY – Category 5 ACUTE DERMAL TOXICITY – Category 5
Hazard Pictograms:	None
Signal Word:	Warning
Hazard Statements:	May be harmful if swallowed. May be harmful in contact with skin.
Precautionary Statement	
Prevention:	Wear protective gloves/clothing and eye/face protection. Avoid breathing dust/fume/mist/vapors/spray.
Response:	If you are not feeling well, get medical attention. IF SWALLOWED: Rinse mouth. If not feeling well, get medical attention. IF ON SKIN: Rinse skin with water or shower. If not feeling well, get medical attention. IF SKIN IRRITATION OR RASH OCCURS: Wash with plenty of water. Take off contaminated clothing and wash it before reuse. If skin irritation or rash occurs: Get medical advice/attention. IF INHALED: If you are not feeling well, get medical attention.
Storage:	Store locked up.
Disposal:	Dispose of contents and container in accordance with all local, regional, national and international regulations.

SECTION 3: COMPOSTION/INFORMATION ON HAZARDOUS INGREDIENTS

<u>Ingredient</u>	<u>CAS #</u>	CONCENTRATION		
Octadecylaminodimethyltrihydroxysilyl propyl	27668-52-6	0.75%		
ammonium chloride				
[also named 3-(trihydroxysilyl) propyldimethyloctadecyl				
ammonium chloride in water]				

SECTION 4: FIRST AID MEASURES

Eye Contact	Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention if irritation persists.
Inhalation:	If not feeling well, get medical attention. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. In case of inhalation of decomposition products in a fire, symptoms may be delayed. The exposed person may need to be kept under medical surveillance for 48 hours.
Skin Contact:	If skin irritation or rash occurs: Wash with plenty of water. Take off contaminated clothing and wash it before reuse. Get medical advice/attention.
Ingestion:	Wash out mouth with water. Remove victim to fresh air and keep at rest in a position comfortable for breathing. Do not induce vomiting. Never give anything by mouth to an unconscious person.

Flammability of the Product	Not combustible.	
Extinguishing Media	Small Fire: Use DRY chemical powder Large Fire: Use water spray, fog, or foam.	
Protective Equipment for Firefighters	Firefighters should wear full protective clothing including self contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.	

6. ACCIDENTAL RELEASE MEASURES

Small Spill or Leak	Dilute with water and mop up or absorb with an inert dry material and place in an appropriate waste disposal container. If necessary, use suitable protective equipment (Section 8). Finish cleaning by spreading water on the contaminated surface and dispose of according to local and regional authority requirements.
Large Spill or Leak	Absorb with an inert material and put the spilled material in an appropriate waste disposal container. Use suitable protective equipment (Section 8). Do not release into the environment.
Containment Methods	Stop the flow of material if this is without risk. Prevent spilled material from entering sewage and drainage systems which lead to waterways. Contain and collect spillage with absorbent material, i.e. sand, earth, diatomaceous earth and place in a container for disposal according to local regulations. Contaminated absorbent material may pose the same hazard as the spilled product.

7. HANDLING AND STORAGE

Protective Measures	Wear appropriate personal protective equipment. Do not get in eyes or on skin or clothing. Do not breathe vapor or mist. Wear appropriate respirator when ventilation is inadequate. Do not enter storage spaces unless adequately ventilated. Keep in the original container and keep tightly closed when not in use. Empty containers retain product residue and can be hazardous. Do not reuse container. Remove contaminated clothing and protective equipment before entering eating areas. Workers should wash hands and face before eating, drinking, or smoking.
Conditions for Safe Storage	Do not store below 0°C (32°F). Store in accordance with local regulations. Store in a segregated area. Store in original container protected from direct sunlight in a dry, cool, and well ventilated area, away from incompatible materials and food and drink. Separate from acids and oxidizing materials. Keep container closed and tightly sealed until ready for use. Use appropriate containment to avoid environmental contamination. Empty containers retain product residue and can be hazardous. Do not reuse container.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Engineering Controls	Use only with adequate ventilation. Use process enclosures, local exhaust ventilation or other engineering controls to keep worker exposure to airborne contaminants below any recommended or statutory limits.	
Personal Protection	Eyes Skin	Wear eye and/or face protection. Permeation resistant gloves. Considering the parameters specified by the glove manufacturer, check during use that the gloves are still retaining their protective properties. Permeation resistant clothing and foot protection.
	Respiratory	No personal respiratory protective equipment is normally required. If engineering controls do not maintain airborne concentrations below recommended exposure limits (where applicable), an approved respirator must be worn.
General Hygiene Considerations	When using, do not eat, drink, or smoke. Do not get this material in contact with skin. Wash hands and face before breaks and immediately after handling the product. Wash hands after handling and before eating. Keep away from food and drink. Handle in accordance with good industrial hygiene and safety practice.	

9. PHYSICAL AND CHEMICAL PROPERTIES

Physical State	Liquid		
Color	Clear colorless		
Odor	Slight		
рН	3.5 - 5.0		
Viscosity, 25'C	Water Thin		
Evaporation Rate	Not available		
Explosion Limits	Non-Explosive		
Specific Gravity	0.99-1.01		
Flash Point	Not combustible		
Solubility	Soluble in cold or hot water		
Auto-ignition Temperature	Not available		
Decomposition Temperature	Not available		

10. CHEMICAL STABILITY AND REACTIVITY

Reactivity	No specific test data for this product		
Chemical Stability	Material is stable under normal conditions.		
Conditions to Avoid	Extremes of temperature and direct sunlight.		
Incompatible Materials	Inorganic acids and bases. Avoid contact with oxidizing agents (for example, nitric acid, peroxides, and chromates.)		
Hazardous Decomposition Products	Carbon monoxide. Organic compounds which may be toxic.		
Hazardous Polymerization	Hazardous polymerization will not occur.		

11. TOXICOLOGICAL INFORMATION

CARCINOGENS:	OSHA: NO	ACGIH:NO	NTP:NO	IARC:NO
Acute Oral Toxicity, SD Rats				
Oral LD ₅₀	>2000 mg/	kg		
Acute Dermal Toxicity, SD Rats				
Dermal LD ₅₀	>2000 mg/	kg		

Acute Dermal Irritation, Rabbit	Non-Irritant	BioShield® 75 is classified as "Non-irritant" to rabbit skin according to Globally Harmonized System for Classification of Chemicals (UN GHS, 2017)	
Acute Eye Irritation, Rabbit	Non-Irritant		
Skin Sensitization, Guinea Pigs	Negative	(Magnusson and Kligman Rating of Allergenicity - Weak Sensitizer, Grade 1)	
Acute Inhalation Toxicity, SD Rats	Unclassified		
12. ECOLOGICAL INFORMATION			
Degradability/OECD		egradable. The trihydroxysilyl quats are not expected to contaminate surface or lue to rapid degradation by hydrolysis. (US EPA 739-R-07-007)	
13. DISPOSAL CONSIDERATIONS			
Environmental Hazards	De-activation required during clean up if a spill occurs. De-activation can be achieved by addition of anionic surfactants in quantity equivalent to that of BioShield®75 actives. This product is toxic to fish. Do not discharge effluent containing this product into lakes, streams, estuaries, oceans, or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority.		
14. TRANSPORT INFORMATION

16. OTHER INFORMATION

Notice to the Reader: The information in this Safety Data Sheet should be provided to all who will use, handle, store, transport, or otherwise be exposed to this product. The information is designed for workplace employees, emergency personnel and for other situations where there is a potential for large-scale or prolonged exposure. For consumer use, all precautionary and first aid language is provided on the product label in accordance with applicable government regulations. All information concerning this product and/or suggestions for handling and use contained herein are offered in good faith and are believed to be reliable as of the date of publication. However, no warranty is made as to the accuracy of and/or sufficiency of such information. The Buyer must determine for himself, by preliminary tests or otherwise, the suitability of this product for his purposes, including mixing with other products.
